3. Development of the cows in milk recording	4
3.1. Breed structure development in milk recorded cows in 2022	5
3.2. Distribution of czech fleckvieh cows in milk recording by lactation (2021/2022)	5
4. Milk production development in milk recorded czech fleckvieh cows in 2021/2022	6
4.1. Composition of czech fleckvieh cows by milk yield	6
4.2. Development of milk production and milk components of czech fleckvieh cows	6
4.3. Fat and protein production development	7
4.4. Calving interval and milk production development of recorded fleckvieh cows	7
4.5. Summary evaluation of exterior of primiparous cows	7
5. The best farms and cows in control year 2021/2022	8
5.1. The best farms in control year 2021/2022 F + P	8
5.2. Fleckvieh cows with the highest production of F + P in control year 2021/2022	9
5.3. Fleckvieh cows with the highest lifetime yield	10
6. Artificial insemination	11
6.1. Proportion of the first and all inseminations in different breeds	11
6.2. Proportion of inseminations of czech and imported bulls in herd book	11
6.3. Proportion of bulls included in insemination and natural mating	11
6.4. Breeding bulls with the highest number of inseminations (1.1.2022-30.9.2022)	12
7. Beef production	14
7.1. Genetic trend of beef production of young bulls	14
7.2. EUROP classification - classification of fleckvieh bulls in 2022	14
7.3. EUROP classification - classification of fleckvieh bulls according to herd book section	15
8. Overview of the average milk yield and the number of fleckvieh cows in regions of the Czech republic (2021/2022)	16

INTRODUCTION

Dear breeders,

you have received the third edition of the Annual Report. This Yearbook will give you an overview of the development and trends in the population of Czech fleckvieh cows. Thanks to your hard work, for the first time we have managed to exceed the limit of 8 000 kg of milk per lactation in cows registered in the herd book for the Czech fleckvieh. And this is not the only interesting news in this year's survey. For example, you will learn more about milk yield recording, insemination and beef production. The tables also include the best stables and cows for this year's control year 2021/2022.
